

KODAK CD-R GOLD ULTIMA

Recordable

Long Life, High Performance at Multiple Speeds

Real Gold Metal Layer

*for Disc Safety
and Long Data Life*

Safe Data, Secure Sound

Your information, digital pictures, and music are vitally important... so you'll want to entrust them to KODAK CD-R Gold Ultima for superb data protection. Our ultra-safe design gives you the peace of mind you need when you're recording discs for daily use or for storing backup information.

Built for Sharing

Kodak's CD-R Gold Ultima gives you high performance, compatibility with leading CD readers and writers, and data longevity of 100 years or more. So go ahead and swap discs with family, friends, and colleagues. CD-R Gold Ultima is built with disc sharing in mind, and can withstand handling mishaps better than many discs available today.

INFOGUARD™ Protection System

The rugged, durable overcoat of our INFOGUARD Protection System offers data safety against scratches, fingerprints, and other common mishaps of day-to-day disc handling. Our proprietary stabilized dye protects against light, humidity, and temperature, while our real gold reflective layer resists the effects of oxygen, moisture, and solvents.

Lowest Storage Costs

Recordable CDs offer you the most reasonable storage cost available today—just cents per megabyte for up to 650 MB of space. That's more than six Zip disks worth of space, the equivalent of 450 floppy diskettes or 240,000 pages of hard-copy text.

The Name You Trust

For decades, our people have been renowned for their exceptional research & development work, in-depth technical expertise, and skillful product support in recordable media. Our full family of CD-R products offers you a breadth of choices designed to meet your specific CD recording needs... backed by the quality of Kodak you've come to rely on for digital imaging excellence.

Data Safe, Sound Secure

KODAK CD-R GOLD ULTIMA

Recordable

SPECIFICATIONS

System and Performance

CD write-once media, multisession capable
Compatible with all leading CD writers and CD readers
Fully functional at recording speeds from 1x (150 KB/sec) to 8x (1200 KB/sec)
1.2 m/sec linear velocity
Stable organic dye layer
775-800 nm recording playback wavelength
More than 70% reflection ratio
Mechanical characteristics meet or exceed CD standards
Requires Orange Book-compatible CD-R drive and CD-R authoring software package
Lifetime warranty

Physical Specifications

CD dimensions

4.75" (12.1 cm) outer diameter
.59" (1.5 cm) inner diameter
.05" (1.2 mm) thick

Jewel case dimensions

4.9"h x .375"w x 5.5"d (12.4 x 1.0 x 14.1 cm)

Start diameter

1.76" (4.5 cm);
maximum diameter recording area: 4.6" (11.7 cm)

Weight

0.595 oz per disc (17.0 g)

Polycarbonate resin substrate

INFOGUARD Protection System

Stable dye layer to protect against light, humidity, and temperature

Gold layer to resist oxygen, moisture, and solvents

Durable overcoat to guard against common handling mishaps

Storage

Pre-writing storage: Keep media from Kodak in the original bulk pack container or jewel case at normal room temperature (75°F/24°C)

Permanent storage: Archive CD-R media at 68-72°F (20-22°C) with 40% RH; these conditions will support a data lifetime that exceeds 100 years

Environment

Operates in +41°F to +104°F (+5°C to +40°C)
5% to 85% relative humidity (non-condensing),
0.1g/m³ to 30g/m³ absolute humidity

Package Contents

74-minute disc in jewel case
Index card
